1. Reference Peking 006, there is no need for you to inform Dick Solomon of your conversation with Chou En-lai. I hold such discussions very, very closely. Solomon does not require that knowledge in connection with his duties over there. I do not in any event wish him to be briefing the Congressional delegation, which has no need to know of your discussion with Chou. I will brief the Congressmen to the extent required on their return.

2. I will let you know when the time for my visit is firm. It will probably be some time in early August.

Warm regards.
